

FREE CHECKLIST · STEP 3 OF YOUR ONBOARDING

Proposal Assembly Checklist

Run this against every proposal before you submit — no exceptions. If any box is unchecked, the package isn't ready, regardless of how strong the narrative is.

- Cover letter, signed and dated
- Required SF forms completed (SF-33 / SF-1449 / agency-specific equivalent)
- Technical / management approach narrative — within page limit
- Past performance references — with current, verified contact information
- Priced proposal and all required pricing tables / CLIN breakdowns
- Required certifications and representations (reps & certs)
- Capabilities statement included or referenced as required
- Subcontracting plan / teaming agreements (if applicable)
- Set-aside / certification documentation attached (if claiming a set-aside)
- Page limits, font, and margin requirements met exactly as specified
- All required attachments named and formatted per submission instructions
- Submission portal / email confirmed, with backup delivery method identified
- Document submitted with time to spare before the deadline — not at the deadline

This guide is free, no strings attached. Pair this with the free Proposal Template (Step 2) and Email Etiquette Guide (Step 4). Questions: admin@fass.systems · flow.fass.systems
